British Medical Association

CURRENT NOTES

The Katherine Bishop Harman Prize, 1932

The Council of the British Medical Association is prepared to consider an award of the Katherine Bishop Harman Prize, of the value of £80, in the year 1932. The purpose of the prize is the encouragement of study and research directed to the diminution and avoidance of the risks to health and life that are liable to arise in pregnancy and child-bearing. Within this sphere competitors are free to select the work they wish to present. All medical practitioners registered in the British Empire are eligible to compete. Should no essay be, in the opinion of the Council, of sufficient merit, no award will be made, but the prize will again be offered in the year following ; in this event the money value will be increased. Each essay must be typewritten or printed in English. It must be distinguished by a motto, and accompanied by a sealed envelope marked with the same motto, and enclosing the candidate's name and address. Essays must reach the Medical Secretary (to whom inquiries may be addressed), British Medical Association House, Tavistock Square, W.C.1, not later than December 31st, 1931.

Middlemore Prize, 1932

The Middlemore Prize consists of a cheque for £50 and a certificate, and was founded by the late Richard Middlemore, F.R.C.S., of Birmingham, to be awarded for the best essay or work on any subject which the Council of the British Medical Association may from time to time select in any department of ophthalmic medicine or surgery. The Council is prepared to consider an award of the prize in the year 1932 to the author of the best essay on the following subject: "Sympathetic ophthalmia before and after 1914." Essays submitted in competition must reach the Medical Secretary, B.M.A. House, Tavistock Square, W.C.1, not later than December 31st, 1931. Each essay must be signed with a motto and accompanied by a sealed envelope, marked on the outside with the motto, and containing the name and address of the author. In the event of no essay being of sufficient merit, the prize will not be awarded in 1932.

Scholarships and Grants in Aid of Scientific Research

Scholarships

The Council of the British Medical Association is prepared to receive applications for Research Scholarships as follows: an Ernest Hart Memorial Scholarship, of the value of £200 per annum, and three Research Scholarships, each of the value of £150 per annum. These Scholarships are given to candidates whom the Science Committee of the Association recommends as qualified to undertake research in any subject (including State Medicine) relating to the causation, prevention, or treatment of disease. Each Scholarship is tenable for one year, commencing on October 1st, 1931. A reappointment may be made for not more than two additional terms. A Scholar is not necessarily required to devote the whole of his or her time to the work of research, but may hold a junior appointment at a university, medical school, or hospital, provided the duties of such appointment do not interfere with his work as a scholar.

Grants

The Council of the British Medical Association is also prepared to receive applications for Grants for the assistance of research into the causation, treatment, or prevention of disease. Preference will be given, other things being equal, to members of the medical profession and to applicants who propose as subjects of investigation problems directly related to practical medicine.

Conditions of Award: Applications

Applications for Scholarships and Grants must be made not later than Saturday, May 23rd, 1931, on the prescribed form, a copy of which will be supplied on application to the Medical Secretary of the Association, B.M.A. House, Tavistock Square, London, W.C.1.

Applicants are required to furnish the names of three referees who are competent to speak as to their capacity for the research contemplated.

Medical Appointments Abroad

The head office of the Association naturally has a good deal of information placed at its disposal by its Branches overseas which may be very useful to those proposing to accept medical appointments abroad. Practitioners are cordially invited to apply to the Medical Secretary, B.M.A. House, 19, Tavistock Square, London, W.C.1, for any information that may be available regarding oversea appointments in which they may be interested.

British Medical Association

ANNUAL MEETING AT EASTBOURNE

JULY 17TH TO 25TH, 1931

SUMMARY OF ACCOMMODATION

The following list of hotels, private hotels, boarding houses, and apartments, and their tariffs, has been prepared to assist members of the Association in making their choice. The terms are for one person per diem, unless otherwise stated; and in the case of licensed hotels, private hotels, and boarding houses the price includes bath. Application must be sent *direct* to the hotels, and not to the office of the Eastbourne Division. When applying for rooms, mention should be made of the Annual Meeting of the British Medical Association. Dates printed in the first column are those up to which the available accommodation will be reserved.

EARLY BOOKING ESSENTIAL

In order to avoid disappointment, it is *imperative* that booking should be made as soon as possible, and the Local Committee will be pleased to render any assistance if desired. If garage accommodation is required, members are asked to indicate this when booking rooms. The Honorary Local General Secretary of the Annual Meeting is Dr. P. W. Mathew, Avenue House, The Avenue, Eastbourne.

Association Notices

CORNWALL AND PLYMOUTH DIVISIONS ; AND SOUTH-WESTERN BRANCH

Notice is hereby given by the Council of the Association that the municipal borough and rural district of Launceston will, as from the date of publication of this notice, be transferred from the Plymouth to the new Cornwall Division of the South-Western Branch, the area of the Cornwall Division thus being: Cornwall County and Isles of Scilly.

The Council wishes to remind members that any such proposals as the above, which have for one of their main objects the bringing of the Division and Branch areas into alignment with those of the local authorities, are subject to arrangements which the Council is making whereby any member affected by such change, and who so desires, shall be made an "Associate Member" of what represents his "old" Division and/or Branch. He or she would thus receive notices of, and be able to attend the meetings of, both his old and his new unit, but would be an "Ordinary Member" of the new unit.

ALFRED COX,
Medical Secretary.

February 28th, 1931.

Meetings of Branches and Divisions

DORSET AND WEST HANTS BRANCH: WEST DORSET DIVISION

A meeting of the West Dorset Division was held at the Yeatman Hospital, Sherborne, on January 29th. The members were shown the recently opened extension to the hospital, consisting of a new out-patient department, an *x*-ray room and new *x*-ray apparatus, a refraction room, and new nurses' quarters.

Mr. J. WHITTINGDALE showed a female patient from whom he had removed three-quarters of the thyroid gland for the relief of exophthalmic goitre. This patient had been shown at a previous meeting before operation, and the improvement was very striking. He also showed a girl, aged 2, with spina bifida, with very large meningocele, the size of a grape-fruit.

After tea there was a short business meeting, at which a resolution was passed unanimously stating the objection of the Division to the practice said to have been recently adopted at Yeovil of taking the orthopaedic clinic in the same room and on the day following the tuberculosis clinic. The secretary was instructed to forward copies of the resolution to the county medical officers of health for Dorset and Somerset. Dr. C. J. Marsh and Dr. J. A. Pridham were elected representative and deputy representative respectively of the Division in the Representative Body for 1931-32.

Mr. J. WHITTINGDALE then opened a discussion on the diagnostic significance of backache, in a short paper which was a model of compression. He was followed by Dr. W. R. THROWER, who also made an interesting contribution to the discussion, in which several members took part.

EDINBURGH BRANCH: SOUTH-EASTERN COUNTIES DIVISION

An ordinary meeting of the South-Eastern Counties Division was held in the Railway Hotel, Newtown St. Boswells, on February 11th. In the absence of Dr. Taylor, chairman of the Division, Dr. MARSHALL presided. The consideration of forms for use by medical practitioners in referring insurance cases to hospital or clinic for diagnostic aid or treatment was referred to the annual business meeting.

The SECRETARY read Circular No. 2499 from the Secretary of State for Scotland to the county clerk of Berwick regarding cases of accident or sudden illness in thoroughfares. The Secretary of State stated that where fees were payable in respect of immediate medical or surgical treatment, it was obviously desirable that any arrangements made should provide for prompt payment of such fees, and that for the purpose of settling the amount of medical fees, where payable, and making any other necessary local arrangements, it might be found useful to consult local representatives of the British Medical Association. It was agreed to bring the matter before a meeting of the Executive Committee, and to write to the Medical Secretary asking if he proposed to take any steps towards obtaining uniform fees for the country as a whole.

Dr. WHITE gave an interesting address on advances in endocrine therapy, which was much appreciated. The CHAIRMAN cordially thanked the lecturer for his address.

METROPOLITAN COUNTIES BRANCH: CAMBERWELL DIVISION

A meeting of the Camberwell Division was held on January 20th, with Dr. BOUSFIELD in the chair.

Professor F. R. FRASER gave an address on the recognition of the causes of heart disease and its importance in prognosis. The lecturer classified the conditions as follows: *Congenital abnormalities:* These represented about 1/2 per cent. of all cases, and were not progressive in character. *Infectious:* Rheumatism, syphilis, and bacterial endocarditis were the most important. Syphilitic lesions became manifest about twenty years after the infection; they responded better to treatment, and ran a course of five years or less. Rheumatic cases were often insidious in onset and unresponsive to drug treatment. Professor Fraser stressed the importance of prolonged rest in these cases, and advised bed treatment for at least three months after the disappearance of all symptoms. Bacterial endocarditis was usually fatal in a very short time. *Toxic:* Alcoholic, thyrotoxic, and diabetic types were described in this group. *Degenerative:* Two types of arterio-

sclerosis were considered, those with high blood pressure and those without; the latter were commonly found in later life, and affected particularly the coronary arteries.

After the subsequent discussion a vote of thanks was accorded to the lecturer for his exceptionally interesting address.

STAFFORDSHIRE BRANCH: NORTH STAFFORDSHIRE DIVISION

A meeting of the North Staffordshire Division was held in the North Staffordshire Technical College, Stoke-on-Trent, on January 29th, when twenty-seven members were present. Mr. N. BISHOP HARMAN gave a British Medical Association Lecture on the recognition of common eye disorders in general practice. During the course of his very interesting and instructive address, Mr. Bishop Harman stressed the importance of early recognition and treatment of the more common disorders of the eye, and discussed the differential diagnosis. On the motion of Mr. ALLARDICE a vote of thanks was accorded to the lecturer for his interesting address.

After the lecture Mr. Bishop Harman was entertained to dinner at the North Stafford Hotel.

SUFFOLK BRANCH: SOUTH SUFFOLK DIVISION

The annual general meeting of the South Suffolk Division was held at the East Suffolk and Ipswich Hospital on January 23rd, when Dr. S. S. HOYLAND was in the chair and twenty members were present.

The following officers were elected:

Chairman, Dr. C. S. Staddon. *Vice-Chairman*, Dr. G. J. Conford. *Secretary and Treasurer*, Dr. R. O. Eades. *Deputy Secretary and Treasurer*, Dr. W. F. Addey. *Charities Secretary*, Dr. J. Gutch.

A report was presented of a meeting of the Executive Committee with the medical members of the board of management of the East Suffolk and Ipswich Hospital, held on January 16th, to discuss the proposed contributory scheme for private patients. It was decided to invite the opinion of the local profession at a general meeting to be held on January 30th.

A series of films were demonstrated by Mr. W. COURTENAY illustrating (1) movements of the alimentary tract in experimental animals, (2) emergency operations, (3) appendectomy, (4) Colles's fracture. A vote of thanks was accorded to Mr. Courtenay for his interesting demonstration.

ULSTER BRANCH

A meeting of the Ulster Branch was held on January 29th, when the president, Mr. HOWARD STEVENSON, was in the chair. Dr. RICHARD MCCULLOCH showed a series of lantern slides illustrating the role of radiology in diseases of the respiratory system. He demonstrated by successive slides the rapid progress of carcinoma of the lung, and stressed the increasing frequency of this condition. He also showed a number of *x*-ray films of various manifestations of pulmonary tuberculosis, and emphasized the impossibility of diagnosing many early cases, and cases without physical signs, without this aid. Bilateral disease was often missed on clinical grounds alone. Of special interest was a succession of pictures taken at four-monthly intervals, showing the steady increase in the size of the heart as the lung condition improves; the initial film displayed an extremely atrophied heart.

Professor W. W. D. THOMSON, Mr. A. B. MITCHELL, Drs. J. C. RANKIN, R. M. BEATH, and B. R. CLARKE took part in the discussion, and Dr. MCCULLOCH replied.

YORKSHIRE BRANCH: WAKEFIELD, PONTEFRACT, AND CASTLEFORD DIVISION

A meeting of the Wakefield, Pontefract, and Castleford Division was held at the Red Lion Hotel, Pontefract, on February 5th, when Mr. G. W. THOMAS was in the chair. Dr. A. R. ROCHE gave a clear and interesting discourse on the question of certification under the National Health Insurance Acts, explaining how the rules had evolved and the necessity for them. He detailed the careful investigation which had been made from many different angles and quoted many figures, and came to the conclusion that there was a case to answer on the part of the practitioner. Very full details had been taken of every area and every practitioner in each area, which gave definite comparative results, and, making all allowances, an average of 33 per cent. of cases referred were found fit for work. Dr. Roche gave some glaring examples of lax certification, which resulted from insufficient examination of the patient, and emphasized the need for adequate examination in all cases and for making an honest stand against any imposition, whilst allowing the benefit of the doubt to the patient whenever any existed. In the subsequent discussion Drs. HILLMAN, RADCLIFFE, SCHOLEFIELD, THOMAS, and TWIST took part.

Naval and Military Appointments

ROYAL NAVAL MEDICAL SERVICE

Surgeon Commanders J. A. Maxwell to the *President* for month's post-graduate course, February 20th, to the *Egmon* R.N. Hospital, Haslar, March 22nd; R. P. Ninnis to the *Tama* H.M. Dockyard, Hong-Kong.

Surgeon Lieutenants A. R. Ewart to the *Dryad*; P. B. Jac transferred to the permanent list, seniority antedated to Au 14th, 1927; W. D. M. Sim to the *Vindictive*; G. A. Miller to *Dahlia*; A. S. Cox to the *Glorious*.

R. G. Dingwall has entered as Surgeon Lieutenant for s service, and appointed to the *Victory* for Haslar Hospital.

ROYAL NAVAL VOLUNTEER RESERVE

Surgeon Commander J. F. S. Heaney, V.D., is placed on retired list at his own request, with the rank of Surgeon Capta

Surgeon Lieutenants H. M. Petty and J. Stephen to be S Lieutenant Commanders.
